2014 Reviewer acknowledgment

The performance of Virologica Sincia during the year of 2014 has been excellent. Both article quality and journal impact are largely improved and advanced. This could not be achieved without generous time and insightful comments of our reviewers. The Editors of Virologica Sincia wish to thank all reviewers (December 1, 2013 to November 30, 2014) for your unique contributions to the journal. We look forward to your continuous support either as an invited reviewer or a contributing author in the years to come. Apology is offered to any other reviewer whose name has been inadvertently omitted.
