This article has been retracted at the request of the Editor-in-Chief, as it contains large portions of text that have been duplicated from “Phylogenetic analysis of the non-structural (NS) gene of influenza A viruses isolated from mallards in Northern Europe in 2005” published in *Virology Journal* (2008) 5:147, without sufficient attribution being given to the article. Despite the data / conclusion being original in the paper, this is violating the journal policy.

The online version of the original article can be found under
